Scientific Cooperation

A collection of abstracts will be published following the conference. Participants may also prepare and publish a scientific article free of charge in the scientific journals "Bulletin of Lviv State University of Life Safety" (category B) and "Security of Ukraine" (category C), if they comply with the editorial requirements listed on the website of the publications

<https://journal.ldubgd.edu.ua/>

The participant of the conference should take into account:

- All travel, accommodation, and meal expenses are covered at the participant's own expense or at the expense of the sending organization.
- The report should correspond to the conference topic, contain the results of scientific research and be prepared in accordance with the requirements.
- The requirements of academic integrity and ethics must be followed during the preparation of the report materials and participation in the conference.
- The Organizing Committee reserves the right to review the materials submitted for publication in the abstracts collection.
- The Organizing Committee will refuse the participation of persons who support the aggressor country and the war in Ukraine, and who commit violations of academic integrity and ethics.

Participants who have registered for remote participation will be sent a link to connect to the conference sessions. The link will also be posted on the event's website.
